Re: Termination of Administrative Order on Consent Issued to Rhodia Inc. Pursuant
to Section 7003 of RCRA Docket No. RCRA-08-2004-0003

Dear Mr. Kastner:

The United States Environmental Protection Agency Region 8 (EPA) has received and reviewed the Silver Bow Creek Discharge Line Removal Completion Report dated August 17, 2005 (Report) submitted by Rhodia Inc. (Rhodia) pursuant to paragraph VII.C. of the administrative order referenced above (Order). The Report describes the completion of activities conducted pursuant to the approved work plan (Appendix A to the Order).

Section XV.C. of the Order states that the Order shall terminate upon receipt of written notice from EPA that Rhodia has demonstrated completion of all tasks required under the Order to the satisfaction of EPA. EPA, after consultation with the Montana Department of Environmental Quality has determined that, based on information provided in the Report, the requirements of the Order have been satisfactorily completed. Therefore, upon receipt of this letter, the Order is terminated.

EPA would like to remind Rhodia of its ongoing obligation under Section IX of the Order to preserve, retain, and make available to EPA, all documents and records in its control, or in the control of any contractor or sub-contractor, relating to all actions under this Order, for five years from the date of this letter. This duty includes, but is not limited to, retention of all sampling and other data and information with respect to implementing the Order. After the five year period, Rhodia must notify EPA at least 90 days prior to the destruction of any such documents and records, and EPA may request that you submit such records to EPA.
